Executive Summary

There is potential to engage the private sector in nutrition.

There are existing SBN in the region e.g. Tanzania that the network can draw lessons from.

The network is led by the private sector hence will be run with the private sector in mind.

Other SUN networks will provide support for the network ably engage the private sector in nutrition.

There is a policy framework encouraging the involvement of the private sector in nutrition.
This section explains the approach taken to develop the strategy and includes the key findings that have informed the strategy. Key documents reviewed include Malawi Growth and Development Strategy III (MGDS III), National Multisectoral Nutrition Policy (NMNP), National Agriculture Policy (NAP), National Nutrition Strategic Plan (NNSP). The field research involved Key Informant Interviews (KII) with multi-sectoral players including government, donors, civil society, private sector (food & non food businesses).

### Study Structure & Key Findings

<table>
<thead>
<tr>
<th>Desk Research</th>
<th>Field Research</th>
<th>Analysis &amp; Synthesis</th>
<th>Key Findings</th>
</tr>
</thead>
</table>
| Regional SBN strategies, MGDS III, NMSNP, NAP, NNSP, Food and Nutrition Bill, Landscape analysis. | Public Sector, Private Sector, SBN Task force team, SBN Secretariat, SUN Donor Chair, SUN UN, CSONA. | Drill down issues, Identify key themes, Provide big picture, Structure way forward. | i. There is a supporting framework.  
ii. There are opportunities for private sector to engage in nutrition.  
ii. Malawi is taking a new approach |
Malawi has a very supportive policy environment for private sector engagement in nutrition. As shown below, the MGDS III, NMNP and the NNSP all provide entry points for the private sector’s involvement in nutrition.

<table>
<thead>
<tr>
<th>MGDS III Nutrition Strategies</th>
<th>NMNP Private Sector Expectations</th>
<th>NNSP Private Sector Involvement</th>
</tr>
</thead>
<tbody>
<tr>
<td>i. Fostering adequate market supply of diverse and nutritious foods;</td>
<td>i. Ensure that the standards in the production and marketing of high nutritive-value foods are upheld;</td>
<td>i. The private sector can Train frontline workers and managers on monitoring the quality of fortified foods.</td>
</tr>
<tr>
<td>ii. Promoting technologies that reduce post-harvest losses in storage, preservation and food processing;</td>
<td>ii. Follow mandatory fortification requirements and adhere to recommended fortification standards in all the centrally-processed foods</td>
<td></td>
</tr>
<tr>
<td>iii. Promoting private sector investments in production, processing and marketing of high-quality nutritious foods; including complementary food;</td>
<td>iii. Ensure that the provisions of the Nutrition and the Right to Food and Food Safety Acts are adhered to and meet their social corporate obligation in promoting good nutrition for their employees and the nation.</td>
<td></td>
</tr>
<tr>
<td>iv. Promoting bio-fortification and fortification of major staple food</td>
<td></td>
<td></td>
</tr>
<tr>
<td>v. Promoting food and nutrition education for all; and Promoting education and research into use, propagation and conservation of indigenous Malawian food.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>vi. Promoting Public-Private Partnerships in food production, processing, fortification, and consumption.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Private Sector Key Entry Points

This section presents the potential areas in Malawi where businesses can engage in improving nutrition. The areas highlighted below also present opportunities for adding value to business through reduced staff cost, increased sales, innovation, etc.

<table>
<thead>
<tr>
<th>Private Sector Entry Points</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Market Supply</strong></td>
<td>Operate at each stage of agriculture food chain to increase supply</td>
</tr>
<tr>
<td><strong>Innovation</strong></td>
<td>Technology to scale up initiative like reducing post harvest losses</td>
</tr>
<tr>
<td><strong>Investment</strong></td>
<td>Make investment in the nutrition space, ideal for impact investors</td>
</tr>
<tr>
<td><strong>Fortification</strong></td>
<td>Fortify staples and condiments cost effectively and at scale</td>
</tr>
<tr>
<td><strong>Support Nutrition Sensitive Interventions</strong></td>
<td>Use already set platforms to support nutrition e.g. Mobile Phone Operators providing information</td>
</tr>
<tr>
<td><strong>Public – Private Partnerships</strong></td>
<td>Explore partnerships with govt for special formulated food and targeted groups</td>
</tr>
<tr>
<td><strong>Workplace Nutrition</strong></td>
<td>Education to promote employees make healthy decisions/healthy lifestyles</td>
</tr>
<tr>
<td><strong>Generate demand for Nutritious Food</strong></td>
<td>Increase nutrition awareness on the market place to increase demand</td>
</tr>
</tbody>
</table>
High Impact Sectors & Approach

This section highlights the sectors in which SBN can register high impact and outlines how each sector should be approached to contribute to improving nutrition.

Work together to raise awareness and generate market demand for nutritious foods and drinks
• Advocate for an improved regulatory environment to improve the ease of doing business in food and nutrition
• Receive training, tools and templates on building a strong business strategies around nutrition
• Broaden the customer base and develop a better understanding of the market and the consumers.

Food production & processing
• Help to grow the market for a diversified food basket
• Support Malawian farmers by promoting local & indigenous food products
• Workplace nutrition policy.

Agriculture

Major food retailers:
• Network with organisations along the food value chain
• Discover new food and drink products, advocate for growing the market for nutritious foods.

Retail

• Networking opportunities with organisations looking to expand their supply chains in Malawi
• Work together to form distribution partnerships and leverage existing networks improve distribution efficiency
• Help to make nutritious foods more accessible and affordable by helping to drive down distribution costs.

Transport & distribution
• Innovations
• Workplace nutrition policy

ICT

Finance

Banks and financial institutions:
• Exposure to potential investment and financing opportunities in the food and nutrition industry
• Ignite growth in nutrition by financing viable and high impact nutrition initiatives along the food value chain
• Workplace nutrition policy.

Professionals, Construction, Security, mining
• Nutritious food training
• Workplace nutrition policy.

Accommodation & Food Services

Non-Private sector – To be targeted as stakeholder Only

Key Considerations

1. Use SBN Regional chapters to recruit members within their region
2. Target Malawi owned companies inline with the “Buy Malawin Strategy”
3. Consider attracting international brands in the network
4. Aim for Market Leaders in the sectors so that others may follow
5. Engage a champion
Business Environment

In general, the business environment is unfavorable, as a result most businesses are cost conscious. In order to attract businesses to join the network, SBN must strive to add value towards achieving business objectives.

| Economic slow down | • Slow GDP growth to 4% in 2018 from 5.2%  
• Agriculture sector decelerating  
• Dry spell and army worms  
• Lower business volumes |
|--------------------|------------------------------------------------------------------------------------------------------------------|
| High Interest Rates | • Monetary policy rate at 16%  
• Base lending rates at 24.8%  
• Difficult to borrow and expand business  
• Limited investment due to high cost of capital |
| Inflationary Pressure | • Double digit inflation at 10%  
• Driven by scarcity of food (maize)  
• Pressure from energy and fuel tariff hikes  
• Increased operational costs |
| Erratic Power Supply | • Generation at below 50% of capacity  
• Increased tariffs Ever increasing demand  
• Expensive alternative energy sources |
| Foreign Currency Scarcity | • Anticipated depreciation in the short term  
• More imports than exports  
• Increased costs for imported raw materials  
• Operational hiccups when forex is scarce |

Companies are cost conscious hence they only engage in activities providing the best return on investment. Structure the network in a way that provides a return on investment for the private sector.
Private Sector Key Entry Points

This figure illustrates the steps taken to establish SBN in Malawi. Meanwhile SBN is governed through regional committees with the Malawi Confederations of Chambers of Commerce and Industry (MCCCI) as the secretariat. The goal is to have SBN registered as a trust to enhance sustainability and accountability.
SWOT Analysis

**Strengths**
1. SBN well recognised by the government
2. Private Sector driven
3. Existing SUN networks
4. National Fortification
5. Alliance providing lessons.

**Weaknesses**
1. No separate secretariat
2. No targeted approach to member acquisition
3. May be viewed as a duplication.

**Opportunities**
1. Nutrition policies clearly indicating the need for private sector involvement
2. Private sector players showing interest as long as there is business sense
3. Several potential partnering organisations
4. Potential to deliver value to private sector
5. Interest from impact investors in nutrition
6. Nutrition is on national development agenda
7. Investment funding on high development impact business models.

**Threats**
1. Members and prospective members may lose interest if momentum is lost
2. Limited foreseeable funding sources
3. Difficulty to measure impact may derail funding plan.
**Vision**
Build best business models for scaling up nutrition in Malawi.

**Vision**
Develop new programs, innovations, technologies and affordable nutritious products to contribute towards a wellnourished population for social and economic development.

<table>
<thead>
<tr>
<th>Core Values</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Guided by integrity</td>
</tr>
<tr>
<td>2. Adherence to quality</td>
</tr>
<tr>
<td>3. Innovation &amp; technologies</td>
</tr>
<tr>
<td>4. Legal instrument's both international and national</td>
</tr>
</tbody>
</table>

For SBN to achieve its mission and attain its vision, the following factors should be considered:

| 1. Recognition of mutual benefits from working with the private sector in SUN |
| 2. Include all SUN stakeholders to support SBN |
| 3. Business to support government nutrition agenda |
| 4. Engagement at senior leadership level |
Theory of Change Map

**Inputs**
- SBN Coordinator time, Secretariat time, Excel Data Base, Vehicles, Computers, Excel Tracker, Taskforce team time, Stakeholder mapping, Media & Communication skill, event management
- Business Development Services, Export process skill, standards skill, training, Fund raising skill, investment memos, newsletters, open tenders
- Excel issue tracker, policy analysis, dialogue
- Trade events, logo design

**Activities**
- Door to door visits, target-ed message, commitment request, progress monitoring, media coverage, networking events, info sharing
- Trainings, workshops, Business diagnosis, transaction facilitation, facilitate partnerships, update on tenders, encourage innovations
- Register issues, liaison with government on nutrition policy, recommendations, meetings
- Partnership with private sector to disseminate nutrition information, workplace nutrition policies

**Outputs**
- Wide range of businesses visited, SBN media coverage
- Training materials and updates
- Recommendation papers
- Nutrition adverts

**Outcomes**
- SBN members recruited and are active
- SBN members finding business opportunities through the network
- Favourable nutrition related regulatory environment for businesses
- Increased demand for nutritious food

**Impact**
- Private sector that is fully engaged in nutrition and contributes to the nutrition indicators in the country

**Assumptions**
- Availability of funding for the strategic activities
- Availability of resources to run the secretariat
- Skilled and motivated personnel within secretariat
- Continued support from the SUN network
- Partnerships with other nutrition related networks/associations

How you will notice our success (Indirect KPIs): *Active and committed members, Minimal member attrition, Members working actively to honor their commitments, SBN invited for nutrition related meetings.*

Our performance metrics (Direct KPIs) for 2020 - 2024: *60 members by the close of 2019, 10 Networking events, Active tools of Electronic Communication, 10 Commitment monitor tracker, SBN recognized in the nutrition space, Set up a Board of trustees elected from the members, 10 Trainings, 20 Information repository periodic updates, 20 quarterly newsletter, 10 investment deals, 15 SMEs getting certified, 5 innovative products, SME pitch competition & recognition award to be conducted at trade events, 10 Meetings of the SBN representatives with Govt focused on the legal framework of nutrition, 5 Workshops on the regulation, All members understand the regulatory framework of the sector, 15 Partnership meetings with NFA.*

1. Develop a strong membership base and network platform among members
2. Increased scope for business opportunities
3. Contribute to Improving nutrition regulatory environment
4. Increase knowledge and demand for nutritious products
## Develop a strong membership base and network platform Implementation Plan

<table>
<thead>
<tr>
<th>Objective</th>
<th>Activities</th>
<th>Time Frame</th>
<th>Key Resources</th>
</tr>
</thead>
</table>
| 1.1       | Recruit and retain members | • Create a potential membership database and segment by sector  
• Create specific messaging for each sector for example business opportunities for banks, workplace nutrition policy for construction companies (labour intensive), for well performing companies especially those listed on the Malawi Stock Exchange include an appeal on Corporate Social Responsibility. (CSR)  
• Conduct door to door visitations on a recruitment drive  
• Request they include a nutrition commitment. | • Jan 2019  
• Quarter 1, 2019  
• May 2019 to Dec 2019 | SBN Coordinator, Secretariat, Excel Database. |
| 1.2       | Monitor and track commitments | • Monitor progress on commitments  
• Conduct meetings on progress of the commitments  
• Provide technical support on commitments if needed. | • Quarterly | SBN Coordinator, Excel tracker. |
| 1.3       | Establish an active governance system | • Launch the network  
• Register SBN as a trust  
• Establish an active internal communication plan. | • Feb 2019  
• Quarter 1, 2019 | Task force team, Secretariat. |
| 1.4       | Promote actively SBN visibility | • Maintain an active external communications agenda  
• Ensure media coverage on all SBN events  
• Position SBN as a spokesperson for the nutrition private sector and properly represent members in the public arena. | • Quarter 1, 2019  
• Quarter 1, 2019  
• Quarter 2, 2019 | Task force team, Secretariat. |
| 1.5       | Link with other nutrition related associations | • Conduct a stakeholder mapping exercise of related associations in the country  
• Endeavour to understand their mandates and see where there can be partnerships to avoid duplication of efforts  
• Consider pursuing joint work plans  
• Liaise regularly with the other SUN groups in Malawi a and highlight the critical role that the private sector can play in scaling up nutrition. | • Feb , 2019  
• March 2019  
• June 2019  
• Quarterly | Task force team, Secretariat, Stakeholder Mapping. |
| 1.6       | Promote networking | • Ensure that SBN members have regular opportunities to physically meet and interact with each other, government stakeholders and key partners  
• Share information of relevant nutrition events. | • Bi-annually | Task force team, Secretariat. |
| 1.7       | Engage the media | • Identify media personnel to work with  
• Incentives the media personnel to see the need to cover SBN and an nutrition related stories, | • Jan 2019  
• Quarter 1, 2019 | Task force team, Secretariat. |
## 2. Increased scope for business opportunities Implementation Plan on a Page

</tbody>
</table>
4. Increase knowledge and demand for nutritious food implementation plan

<table>
<thead>
<tr>
<th>Objective</th>
<th>Activities</th>
<th>Time Frame</th>
<th>Key Resources</th>
</tr>
</thead>
</table>
| 4.1 Identify awareness opportunities | • Identify opportunities and ideas for promoting awareness on nutritious food to consumers  
• Focus on opportunities that will foster demand for nutritious food  
• Identifying and listing the plans and campaigns in implementation by other stakeholders in nutrition, with the aim of identifying points that need strengthening to better stimulate the oriented consumption of nutritional and safe products  
• Encouraging the private sector to join efforts to invest in sectoral campaigns that stimulate the consumption of nutritional and safe products  
• Celebrating MoU’s with associations for consumer protection for capitalization of relevant information that may assist the private sector to meet the expectations of consumers  
• Celebrating partnerships with media groups to develop campaigns in the form of advertisement  
• Establishing partnerships with companies in the area of mobile telephony to exploit platforms to inform and educate consumers. | • On going  
• On going  
• On going  
• On going  
• On going  
• Annually  
• On going  
• On going | Secretariat |
| 4.2 Advocate for improved nutrition in the workplace | • Work with companies to have workforce nutrition policies within their employee wellness plans  
• Target Non-food labor intensive businesses | • Quarterly  
• On going | Secretariat |
| 4.3 Encourage CSR support nutrition | • Companies should consider CSR activities that has improved nutrition in mind in their communities | • On going | Secretariat |
| 4.4 Endorse nutritious food | • Consider designing a logo that would endorse nutritious food products in the country  
• Organize trade events that member food producers can exhibit products and explain the nutrition content and impact | • Quarter 4, 2019  
• Annually | Secretariat |
Membership Value Proposition

Both food and non-food businesses stand to benefit from SBN. Below are some of the value added to the business for registering with SBN:

<table>
<thead>
<tr>
<th>Membership Benefits</th>
<th>Food Sector</th>
<th>Non-Food Sector</th>
</tr>
</thead>
</table>

**Food Sector**

i. Platform to increase business volume
ii. Nutrition market information
iii. Knowledge to operate responsibly
iv. Product diversification
v. More business along the food value chain
vi. Better business models
vii. More demand for nutritious food
viii. Voice concerns on regulations or business environment

**Non-Food Sector**

i. Network with companies & source business deals
ii. Productive workforce & sustainable supply chain
iii. Ensure more sustainable communities and supply chains
iv. Reduction of sick-days and accidents & increased productivity
v. Collective voice & community for nutrition in Malawi’s private sector.
vi. National movement, including major events, aiming to grow the market and expand business involvement in nutrition
vii. Access a wide range of high impact Corporate Social Responsibility (CSR) opportunities
ix. Partner with NGOs and the donor community & receive funding for innovation piloting
This action plan presents a roadmap that will guide the operations of SBN in 2019.

- **Door to door membership acquisition campaign**
- **Collate business opportunity related information from the SUN network**
- **Pitch Workplace policy & Nutrition CSR initiative to relevant businesses**

**KEY:**
- **Due time**
- **In-progress**
Budgeting & Funding

Funding Sources

SBN has been funded by Donors largely. Expected to continue in the short run until the network is sustainable.

Key Expenditures

Bulk of the expenses in the budget are strategic activities as SBN does not have stand alone staffing.

Sourcing Strategies

i. SBN should develop funding proposals to donors. CSONA & other SUN networks should support proposal drafting. SBN should develop detailed budget
   ii. The SBN strategy is key for fundraising
   iii. SBN should engage in joint work plans with other nutrition related organizations

2019 Funding Needs

~$70k
Conclusion

Private sector engagement in nutrition in Malawi is attainable because the SBN is driven by the private sector, enjoys multi-sectoral support and has a clear value proposition for businesses, both food and non-food.
